KKE Secretary General  
Athens

Prague, November 29, 2013

Dear comrade Koutsoumpas,

Let us give you, and via yourself to all Greek communists, our most cordially congratulations to the 95<sup>th</sup> Anniversary of the KKE's foundation.

The KKE's glorious history is full of examples of genuine heroism, determination and devotion to the principles of proletarian internationalism. Czech Republic's communists know well the KKE's unwavering fight against both the fascism and the “Black Colonels” dictatorship as well as its never-ending struggle for the workers' rights.

The tradition of mutual tight relations is also long-standing and firm, the one between our fraternal parties, to be increased by thousands of Greek people coming to our country after being forced to emigrate from their homeland as to be pursued by the monarch-fascist regime after the WW II; then Czechoslovakia became their second home.

The KKE has stood all the tests of time, further fearlessly defending the interests of Greek workers and people, showing them the ways out from the capitalist crisis.

By the whole heart, we wish to the fraternal KKE strengthening its position within the Greek society, and, in the same time, we wish you next victories to be urgently needed for the heavily suffering Greek people. We value highly the work to be made by the KKE in the international communist movement. We are ready further both to develop and increase friendly both the relations and the cooperation between our fraternal parties.

Sincerely, comradely greetings

Vojtěch Filip  
Chairman of KSČM's CC
